Doing Business and Partnering with the Department of Health Services (DHS)

Are you interested in finding out how to become a provider of services with DHS or any of the divisions within DHS? Did you know that once DHS has identified a particular type of service we want to provide and are looking for an entity to provide that service, we will post the Contractor Bidding Opportunity on the DHS website? In addition to checking our website regularly for business partnering opportunities, you can also **sign up for e-mail alerts**.

- To view current bidding opportunities, click the link below:
<https://dhs.saccounty.gov/Pages/Contractor-Bidding-Opportunities.aspx>
- This will take you to a webpage listing of Requests for Proposals (RFP's), Requests for Applications (RFA's), Letters of Intent and Letters of Interest (LOI's).
- To sign up to get email notifications when DHS releases competitive processes, scroll down to the bottom of the page until you reach this sentence written in blue: [To sign up for e-mail updates for this page, select here.](#)
 - Click on the link to bring up the registration page which requires your e-mail address. After entering your e-mail address click on the "submit" button.
 - We recommend having several individuals from an agency sign up. Most competitive processes are time limited, and require response/action by a deadline.

RFP's and RFA's will include information regarding contract requirements, including insurance and audit requirements. Specific requirements vary depending on a variety of factors, including but not limited to: dollar amount of the contract and type of services to be provided.

Risks/requirements are evaluated by Departments, County Counsel and County Risk Management and are subject to change.
